Chapter 11 Practice Problems for Final
This is NOT due at any time

The following assignment is meant to complement the learning done in class. To get the most out of your MA 581 experience, you should attend class and complete the assigned readings and problems. One cannot be substituted for the other. Some of these problems may be more challenging than others. Please feel free to work with others, visit my office hours or email me if you need help.

Read: 11.1-11.4

The following problems should help prepare you for Chapter 11 final material:

Chapter 11: 2, 3, 4, 7, 76, 82

If you are struggling or have extra time, I invite you to do more than the problems listed here to further hone your skills and understanding.
