Course Grades:

University policy does not allow me to post grades in any way. You must get your course grades from the Registrar's Office using TelGrade.

Your course grade will be computed according to the grading scheme that was given on the syllabus. That scheme already makes an allowance for one bad exam. No factors other than your performance on the exams and your discussion section grade affect your overall course grade.

I try to be especially careful when I compute your grade, but if you think that I have made a mistake in the computation, then you can check with me next semester. Due to the end-of-the-semester rush followed immediately by the holiday break, I am sorry to say that I will not be able to respond to email messages regarding your course grades. I will be available at the start of next semester to answer any questions you may have.

Good luck during finals and have a happy holiday season.
