

## MA 713 Exercises

You should pass in answers to the following exercises on Wednesday, April 6.

7.1. Exercise 1 on p. 161. (See note below.)

7.2. Exercise 3 on p. 161. (See note below.)

7.3. Exercise 1 on p. 166.

7.4. Exercise 3 on p. 174.

**Special note:** Each time that I have taught this course in the past, I have assigned Exercises 1 and 3 on p. 161 with the understanding that I did not expect solutions to all parts of the problems. However, in 2002, I was surprised by one student. He did *all* parts of both exercises and only made one minor error. It was the most impressive display of computation that I have ever had from one of my students.
