BOSTON UNIVERSITY GEOMETRY AND PHYSICS SEMINAR

HOMOTOPY MOMENT MAPS

Yaël Frégier
MIT/Zürich

Dec 5, 2012, 4:00 – 5:00pm
Math/Computer Science, Room148
111 Cummington Street, Boston

Tea: 3:45pm in Room 144

Abstract: There exists a program of developing symplectic geometry for loop spaces. In this talk I will consider the concept of moment maps form this point of view and present results obtained in joint work with C. Rogers (Göttingen) and M. Zambon (Madrid).

See `http://math.bu.edu/research/geom/seminar.html` or contact Si Li *sili@math.bu.edu* for more information.
